## THAILAND ECONOMIC INDICATORS Q1 2024

Source: NESDC (National Economic and Social Development Council)

## Thailand's Economy Expanded at Slower Rate Than in Previous Quarter

Thailand's economy in Q1 2024 expanded by 1.5%, slowing from 1.7% in the previous quarter. Growth in this quarter was driven by exports, private consumption and investment, but public investment and government expenditure contracted. The government expects GDP growth of between 2.0% and 3.0% for 2024. Last year's growth rate was 1.9%. The Thai economy in 2024 will grow faster than in 2023, driven by private consumption, tourism, and public spending. The inflation rate in Q1 2024 contracted at 0.79% y-o-y, down from -0.53% y-o-y in Q4 2023. The Central Bank has forecast its inflation target range of 1% to 3% for 2024. The Thailand Central Bank maintained the key interest rate at 2.5% as of April 2024. The unemployment rate increased to 1.01% in Q1 2024, up from 0.81% recorded in Q4 2023.

## Grade A Retail Inventory in CRD Areas Remained Unchanged

Total Grade A retail inventory in Central Retail District (CRD) locations remained unchanged at 986,218 sq m in 1H 2024. The average asking rental rate remained stable at THB3,596 per sq m per month in 1H 2024. The vacancy rate of the prime CRD retail market in 1H 2024 slightly increased to 3.38%, up from 3.11% in 2H 2023. The key reason for the greater vacancy was the renovation of large malls in the period, to enable more luxury boutique stores with international brands and exclusive products and services to establish in the renovated properties.

## **Retail Market Expected to See Greater Competition**

The Bangkok retail market is set to be highly competitive with further mall development in the pipeline. Total retail supply of 502,758 sq m across nine projects is now under construction and targeted to enter the citywide market from 2024 to 2027. Of this volume, 129,556 sq m or 25.8% of the total will be in the prime CRD market. The overall occupancy rate is then expected to rise. Retail market rental levels are forecast to stabilize in the coming 12 months. Ahead, we expect to see a boom in retail market revenues, although overall market growth may be cautious and will be nuanced between retail segments and locations. Grade A shopping malls in CRD locations will face greater challenges in drawing in shoppers in the coming quarters as there will be new grade A shopping malls in the One Bangkok mixed-use project. The complex is set to open its world-class shopping and lifestyle experiences, especially in the CRD fringe areas. The property will attract top-level businesspeople, investors, shoppers, and tourists both locally and internationally.
