

MARKET FUNDAMENTALS

WEST SUBMARKET LEADS RESIDENTIAL SUPPLY IN Q2

In Q2-2025, Ahmedabad witnessed new supply of 5,166 residential units. This is a 2% YoY growth, but marginal 1% decrease on QoQ basis.

The West Peripheral sub-market led the launches with 37% share, followed closely by North that accounted for 30%. West Peripheral's sustained activity can be attributed to its proximity to Sanand industrial hub and direct access to the Sardar Patel Ring Road — factors that have supported sustained residential demand. This submarket has averaged ~1,700 units across the last eight quarters.

The North and North Peripheral submarkets of the city have been witnessing new launches on a consistent basis for the last two years. In Q2-25, with ~1,530 units, the supply in north Ahmedabad has increased by 61% on YOY basis and was down by 20% on QOQ basis.

MID-END SEGMENT DOMINATES SUPPLY IN Q2

In Q2 2025, the mid segment maintained its dominance, accounting for 70% of total launches with approximately 3,600 units-reflecting a 19% increase over the average quarterly supply of the past four quarters.

The affordable segment recorded its strongest performance since Q4 2022, with around 1,550 units launched—a sixfold increase on both a QoQ and YoY basis.

Meanwhile, supply in the premium categories remained muted. Q2 2025 marked the third consecutive quarter of negligible activity in the luxury segment, while the high-end segment also saw limited launches following a strong run over the previous eight quarters

CAPITAL VALUES AND RENTALS GROW ACROSS THE CITY

Average capital values across Ahmedabad have grown by ~6% on YOY basis. In the high-end category, the West sub-market has witnessed capital value appreciation of 12-15% on YoY basis. Whereas, in the mid-end category, South and East sub-markets have witnessed 10-12% capital value growth on YOY basis.

Average rentals have grown by 10-15% on YOY basis, with the North and East sub-markets leading the pack with 20-25% growth each. The outlook for capital values and rentals is stable in the short-term.
