ECONOMY

Tampa Bay recorded sustained healthy population growth, increasing by 1.2% year-over-year (YOY) to a total of 3.5 million residents. Nonfarm employment expanded by 14,000 jobs during the same period, reflecting a 0.9% increase. The median household income rose by 4.0% YOY, reaching $77,900 by the end of Q2. Although the unemployment rate edged up 30 basis points (bps) to 3.8%, it remained below the national average of 4.2%.

SUPPLY & DEMAND

Through the first half of 2025, a total of 2,661 units across eight buildings were delivered, marking an 80.0% decline from the record-setting volume recorded during the same period in 2024. At the end of Q2, there were 31 buildings under construction totaling 8,597 units, with 65.8% of that activity located in Hillsborough County. This marked the first quarterly increase in construction starts following five consecutive quarters of decline, though starts remained down 2.2% YOY. The slowdown in construction, combined with ongoing in-migration, could help rebalance supply and demand, providing breathing room for newly completed developments to reach stabilized occupancy.

Absorption began the year on solid footing, with 2,442 units occupied through Q2, an improvement over mid-year 2024 totals. However, despite healthy absorption, stabilized occupancy (which excludes properties in initial lease-up or delivered within the past 18 months) fell to 92.7%, the lowest level recorded in the past decade. Still, several submarkets continued to post strong occupancy rates, including Downtown Tampa (94.3%), Northwest Tampa (94.2%), and Central Pinellas (93.5%).

MARKET PRICING

Effective rents averaged $1,887 per unit at the close of Q2, reflecting a 1.2% YOY increase. Pinellas County recorded the most substantial rental growth, rising 2.0% YOY to $1,941 per unit. All asset classes posted positive rent growth over the past 12 months. Class A properties averaged $2,305 per unit, up 1.4%, while Class B assets posted a modest 0.8% gain to $1,801 per unit. Class C product recorded the strongest growth, with rents rising 1.7% to $1,479 per unit. This may be attributed to heightened demand for more affordable options amid sustained economic pressures and rising costs in higher-tier properties. Downtown St. Petersburg led all submarkets in rent growth, rising 2.8% YOY to $2,697 per unit, the highest average in the market.
