BE AT THE CENTER OF THE ACTION

THE MAINMARK
BUILDING

This is an aerial night photograph of a city skyline. In the foreground, a tall, slender, illuminated tower stands prominently. To its right, a large stadium is visible with a bright green light display on its facade. The rest of the city is filled with various buildings, some of which are brightly lit with colorful lights. A yellow rectangular box is drawn around a specific building in the middle ground, and a text label points to it.

- Somera Road \$500M West Bottoms redevelopment project
- Greenline Trail System
- Hospital Hill/Health Sciences District

STREETCAR

The Mainmark Building is located on the streetcar line, just one block from the stop at 16th & Main Street. The original 2.2 mile KC Streetcar line (completed 2016) has been one of the most successful in the United States by ridership numbers and has attracted more than \$4 billion of investment in new development projects near the track from 2013-2020. The KC Streetcar has won numerous national awards and there are currently two expansion lines under construction. The planned southern 3.5-mile extension of Kansas City's streetcar on Main Street to the Country Club Plaza/UMKC and the northern expansion line to the Riverfront are expected to be completed in 2025 and 2026 respectively. The extensions will provide the Mainmark Building with unparalleled front door access to all the major sites in Kansas City's urban core.

DOWNTOWN DEVELOPMENT:
