Poised for Growth

According to the Proposed Niagara Region Official Plan, the Region is planning to accommodate a minimum population of 694,000 people and 272,000 jobs by 2051. This represents an increase of over 200,000 people and 85,000 jobs compared to 2021. Niagara Falls estimated population will be 141,650 with 58,110 jobs. Furthermore, current interest rates combined with the legislated mortgage stress test have continued to push homebuyers to locations outside of the GTA where housing is more affordable. Evidence of these trends is tangible, across residential developments that are proposed and under construction in Niagara Falls, St. Catharines, Thorold and Welland. Overall, the Niagara Region has and will continue to see tremendous growth with particular focus towards affordable housing solutions through higher-density housing forms.
