Benefits of Ownership

Lakeside Business Centre offers an excellent opportunity for businesses to own their space in the Durham Region, which has the highest growth market in the Greater Toronto Area and very few quality small-bay industrial units available. This presents a true opportunity for businesses to invest in a well-positioned asset that will continue to appreciate for decades to come while earning a significant return on investment. With lease rates in this market drastically increasing each quarter, the comparison between the monthly cost of renting and a monthly principal payment with interest shows the benefits of investing in your real estate to build equity and secure your business' future.

PERSONAL WEALTH

Build personal wealth apart from your operating company.

FLEXIBILITY

Control of your own facility and be free of Landlord woes. Be your own landlord by controlling your rent increases or own industrial property within a competitive industrial market.

EQUITY

Build your own equity instead of investing in leasehold improvements to appreciate someone else's asset.

TWO-FOLD TAX BENEFIT

Owner's business will still write off their rental payment as a business expense and their holding company will deduct carrying costs against rental income. Potential for Capital Cost Allowance deduction.

Owning your company's real estate provides flexible exit strategies for business owners.

1

Selling your business & retaining an income producing real estate asset.

2

Selling your facility (and potentially leasing back the facility) for a substantial cash infusion.

3

Selling both your business & the facility together.
