ZONING

Commercial Mixed 2 (N-CM-2): This zone is intended to provide a zoning district where the development of general commercial uses, including auto-related uses, and mixed use may be allowed. The zone provides for a variety of development opportunities including 1) stand alone commercial; or 2) mixed use, with general commercial use types as listed in this chapter. The N-CM-2 zone applies to properties with frontage on North Highway 101, generally between A Street and Marcheta Street. The intent of this zone is to achieve an eclectic blend of uses and architectural styles by orienting buildings to North Highway 101, emphasizing a pedestrian scale and friendliness, and continuing to emphasize the use of dominating trees in the streetscape.

Commercial allows a wide range of general commercial activities, including auto-related uses, retailing, service, and visitor-serving uses, with the intent of accommodating citywide or regional needs and serving the needs of persons visiting the city for business and recreational purposes.

Mixed Use allows commercial and residential uses at a maximum density of 25.0 dwelling units per net acre on the same property or in the same structure, with the intent of providing opportunities for housing and live/work or artisan loft arrangements, while also mitigating the impacts between commercial and residential uses.

It is the intention of the N-CM-2 zone to allow for functional and physical integration of project components of mixed uses. Consideration will be given to joint use of parking, sizes of residential units, and overall architectural design when considering approvals for mixed use developments.
