## BUILDING FEATURES

Mount Pleasant and the surrounding area is characterized by its past and energized by its future, shaped by its access to transit, walkability, dedicated bicycle routes and shared transport, and bolstered by its growth and given purpose by the successful creators and innovators that call it home. Mount Pleasant is more than a location, it is a community – a truly unique sense of place.

Mount Pleasant has fully emerged as the City's newest tech hub with a slew of digital effects, multi-media, software design, bio-tech and enterprise software companies making significant and long term commitments – groups such as Abcellera, Zymeworks, Saje Wellness, Relic/Sega, WildBrain, BTY Group and many more. With more than 1,000 residential units in a mix of condo and rental currently under development in immediate proximity, and the Broadway SkyTrain Extension slated for completion in 2025, Mount Pleasant is just getting started.
